Company Background

Enfinite Solutions Limited was incorporated in 2007 with the sole aim of helping businesses solve operation challenges through technology. Our solution development strategy is to make your operations more efficient through innovations that empower you to:

- a) Effectively respond to customer needs
- b) Get fast access to business intelligence
- c) Reduce operations cost

This in return leads to improved customer satisfaction, fast informed decision making and business growth.

Cut Costs

Increased Customer Satisfaction

Improved efficiency

We seek to continuously learn your operation challenges then use our human expertise and right technology to give you a solution; with measurable results. We are determined to evolve with your needs to help you remain competitive in the volatile business environment. We never stop asking: how can we make something work better for you?

Industries

Legal

Finance

NGOs

Our Vision

To attain global recognition in the software development domain, especially in areas of Business Management and Legal Practice Management.

Our Mission

To develop, deploy and support comprehensive, innovative, easy-to-use and affordable business solutions, which provide the highest level of integrity in both our products and our relationships with our customers and employees.

Our Objectives

- Provide reliable, efficient and cost effective services in the world of Information Technology.
- Put a turn-around to the latent state of Information Technology in the country today.
- Advise our clients on how to take advantage of I.T. services to better their day-to-day operations.

Our Values

- **Business Integrity:** Our desire to stick to our commitments whatever the cost.
- **Focus on Client Business:** We conduct in-depth interviews and discussions with our client to determine their operating procedures and business needs. This helps us to meet the objectives and expectations of our client.
- **Technology Oriented:** We enable your business with the right technology chosen from our vast technology pool. Our extensive exposure to the latest technology trends and various industry domains helps us to meet the specific requirements of your business.
- **Dedication to Client Success:** We believe in establishing long term business relationship with our clients, and exceed their expectations through win / win solutions.
- **Commitment to Excellence:** We constantly seek for feedbacks from our clients, employees, and investors. It enables us to serve our clients in a better ways. In short, we strive to be the very best that we can be.
- **Learning:** Constant change is a reality. Our plan is to thrive on it.
- **Community:** Our responsibility to build and enrich the community in which we operate.

Business IT Consulting

Knowing when to consult with industry experts, for the areas of your business where there may be knowledge gaps, has always proven to be a beneficial decision and wise investment of your money. From business transformation through to optimizing information gathering and systems integration, we provide a full range of consultancy services and support to help take the hassle out of your Information Technology infrastructure.

Software Development

We offer client-specific and customized process-driven software solution, with exceptional quality, on-time delivery, and cost-competitiveness. Our service delivery approach is to balance product development efforts and project duration to your business needs. Our services also cover cost-effective software programming services, from product idea, through software development, quality assurance to enhancement and support services.

Systems Audit

We consult and evaluate our clients' Information Technology systems to attain information systems that will achieve our client's business objectives and add value for its stakeholders, maintain data integrity, prevent fraud and safeguard client's assets and consume resources efficiently.

Risk and Compliance Management

We provide an integrated risk and compliance management solutions for banks and financial services organization.

Our Products

WakiliCMS

LAW FIRM MANAGEMENT SOFTWARE

WakiliCMS is an all-in-one, comprehensive, easy-to-use legal management software for the modern law firm. WakiliCMS offers all you need to run a law firm from client registration to billing and payments, with powerful tools to manage clients, files, requisitions, documents, invoices, calendars, time sheets, reporting, accounting, and Human Resource management.

Every day more and more Law firms, lawyers and legal professionals use or have used WakiliCMS for the digital management of their cases. For them, WakiliCMS has become an indispensable tool because:

You have access to your files at any time

You save on operational costs

You have immediate access to the status of every case

Increased Efficiency

You save time

Easy and fast deployment

All contact details are automatically updated

The possibilities of quick reporting are endless

WakiliCMS offers you a complete management solution

EliteSuite

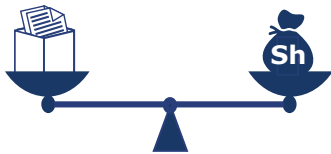

LEGAL DEPARTMENT MANAGEMENT SOFTWARE

EliteSuite is a set of tools used by corporate legal departments to help them manage their legal files, contracts and Governance, Risk and Compliance issues.

EliteSuite includes: EliteLegal, EliteContract and EliteGRC

EliteLegal

EliteLegal offers a variety of features and modules that will provide a simple way to manage files, outside legal counsels, progress and file bring-ups, fee notes and quotation from outside legal counsel, budgets and legal spend management to name but a few. Streamline your legal department and reduce time working on files while keeping track of department budgets

Cost Control

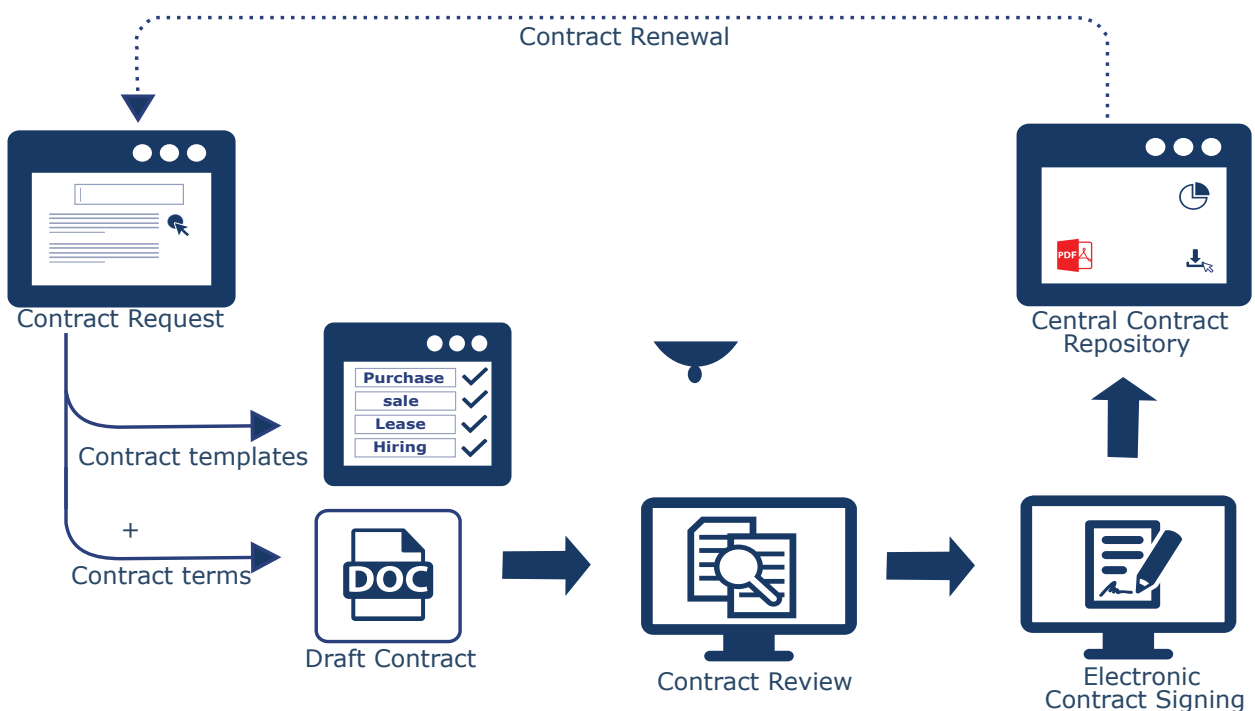

Outside Counsel Management

Gain Visibility

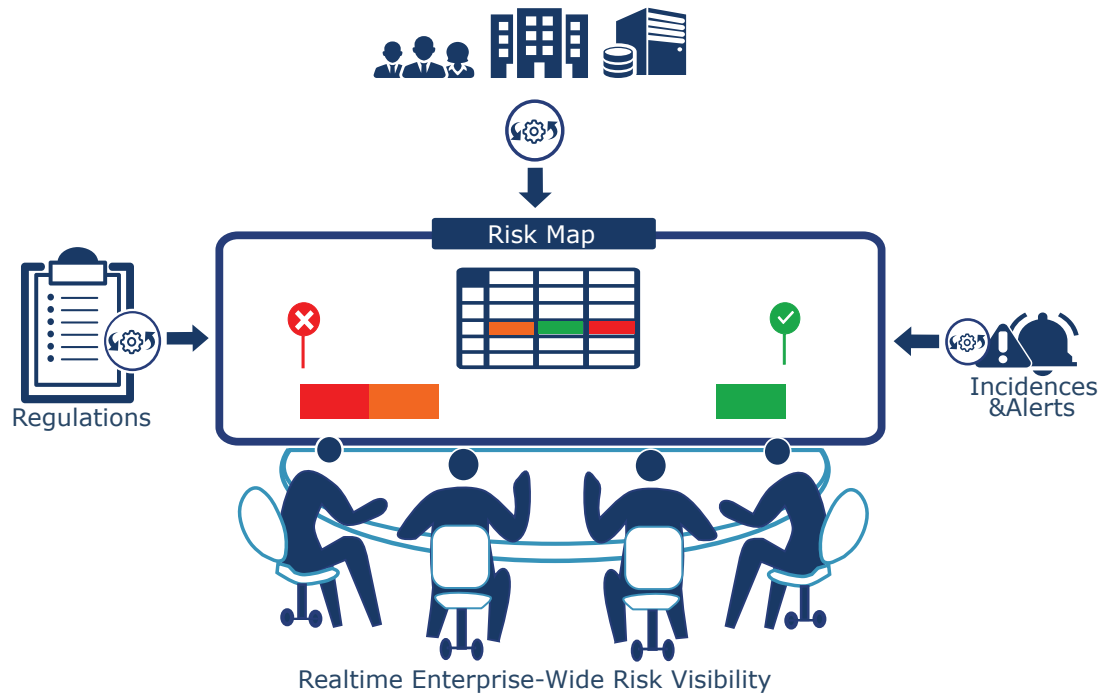

EliteContract

EliteContract offers a simple, powerful, and secure way for you to get your contracts under control, eliminating the risk associated with poorly managed documents. With EliteContract you will not have to worry about when a contract is about to expire, whether the vendor or contract has been reviewed before a contract is renewed, whether KPIs stipulated in the contract have been completed etc. Some of our Key features include:

EliteGRC

EliteGRC is our Governance, Risk and Compliance software which consolidates your GRC program on a single cloud-based platform, helping you reduce risk, maintain records and demonstrate regulatory compliance. Now our clients can eliminate time-consuming processes and be prepared for ever-changing regulations.

BankMa\$ter

Our ATM, Mobile and Agency Banking application is used by banks, micro-finance institutions and SACCOs to connect to a new or existing ATM network. It also allows clients to transact over their mobile phone or through an agent. BankMa\$ter works as an interface with an institution's main system. It connects to the main system to credit or debit a client's account liaising with information captured over the ATM machine, Mobile Phone or Banking Agent POS terminal when the client transacts.

MobiData

MobiData is a custom-made content management system with SMS capability. Organizations use the application to collect and manage content, send and receive SMS and perform analysis on the information collected.

What our Customers say about us

I offer operational assistance to law firms and have seen first-hand how WakiliCMS has transformed the operation of firms. Their dedication to improve the system has been consistent and in the years I have worked with them, they have never shied away from any challenge I give towards improving the system.

Carol Kariuki
CEO, Totally Sorted LTD

We are now able to serve more clients and balance our accounts in time something that was a big headache before.

Sam Ngotho
Accountant

I am able to see what is happening in other departments without having to call the person responsible.

David
PARTNER

We can keep track of all our files and this helps to keep accurate records and avoid repetition. Keep track of file progress and we can work from anywhere.

Catherine
LEGAL SECRETARY

Reminder of bring ups and court dates is automated so we are not missing court dates. Tasks are also completed in time.

Hellen
ADVOCATE

All modules are linked together so information is shared across all departments.
